

HCNE GB0-183

Huawei-3Com Certified Network Engineer

Thank You for Downloading GB0-183 Updated Exam Questions

<https://certs4sale.com/huawei/gb0-183-pdf-exam-dumps>

Question: 1

Frame Relay adopts () as the switching method.

- A. Routing
- B. Circuit switching
- C. Fast switching
- D. Packet switching

Answer: D

Question: 2

Two routers are in back-to-back connection with the following configuration. Can they communicate with each other?

[Router1]display current-configuration

```
#
sysname Router1
#
FTP server enable
#
l2tp domain suffix-separator @
#
fr switching#
radius scheme system
#
domain system
#
local-user admin
password cipher
.]@USE=B,53Q=^Q`MAF4<<"TX$_S#6.NM(0=0\)*5WWQ=^Q`MAF4<<"TX$_S#6.N
service-type telnet terminal
level 3
service-type ftp
#
interface Aux0
async mode flow
#
interface Ethernet0/0
ip address dhcp-alloc
#
interface Ethernet0/1
ip address dhcp-alloc
#
interface Serial0/0
```

```
link-protocol fr
fr interface-type dce
#
interface Serial0/0.1 p2p
fr dlci 20
ip address 10.0.0.1 255.255.255.0
#
interface NULL0
#
user-interface con 0
user-interface aux 0
user-interface vty 0 4
authentication-mode none
user privilege level 3
#
return
[Router2]display current-configuration
#
sysname Router2
#
FTP server enable
#
l2tp domain suffix-separator @
#
radius scheme system
#
domain system
#
local-user admin
password cipher
.]@USE=B,53Q=^Q`MAF4<<"TX$_S#6.NM(0=0\)*5WWQ=^Q`MAF4<<"TX$_S#6.N service-type telnet
terminal

#
user-interface con 0
user-interface aux 0
user-interface vty 0 4
authentication-mode none
user privilege level 3
#
return
```

- A. Yes
- B. No
- C. No decision can be made, for there is not enough information.

Answer: A

Question: 3

Encapsulation means that the network node packets the data to be transmitted with a specific protocol header before transmission, sometimes it will add some information at the tail of the data unit.

- A. True
- B. False

Answer: A

Question: 4

Non-shielded twisted-pair cable provides enhanced anti-interference capability, and further transmission distance than shielded twisted-pair cable.

- A. True
- B. False

Answer: B

Question: 5

Connection-orientated services are reliable packet services, and incur less data loss.

- A. True

B. False

Answer: A

Question: 6

Connection-orientated services are modeled on the postal system, with each packet carrying a complete destination address. In addition, each packet is independent of other packets, and is transmitted via the selected route.

- A. True
- B. False

Answer: B

Question: 7

Which of the following is a network layer protocol?

- A. IP
- B. ARP
- C. ICMP
- D. RARP

Answer: A, B, C, D

Question: 8

Which of the following is a common cable standard for the Ethernet?

- A. 10BASE-T
- B. 100BASE-T
- C. 100BASE-TX
- D. 1000BASE-TX
- E. 10BASE-TX

Answer: A, B, C

Question: 9

Which of the following is DTE of the WAN?

- A. WAN switch
- B. MODEM
- C. Terminal host
- D. Router

Answer: C, D

Question: 10

Which of the following is common DCE of WAN?

- A. CSU/DSU
- B. Router
- C. WAN switch
- D. MODEM

Answer: A, C, D

Question: 11

Which of the following is a correct description of Ethernet MAC address?

- A. The MAC address of the equipment is globally unique.
- B. The MAC address is composed of 56 binary digits, and we generally use the hex to express it.
- C. The preceding six hex digits are allocated by the IEEE, and the subsequent six hex digits are assigned by the producer.
- D. If a computer is configured with two network interface cards, it will have two MAC addresses.

Answer: A, C, D

Question: 12

Which of the following is a correct description about the data link layer of the WAN?

- A. Common data link layer protocols of the WAN includes HDLC, PPP, X.25 and frame relay.
- B. PPP is the default data link layer encapsulation protocol on the serial port of H3C routers.
- C. X.25 accelerate the forwarding rate through the error check mechanism, therefore, it is more efficient than frame relay.
- D. The WAN switch is a common data link layer equipment in the WAN.

Answer: A, B, D

Question: 13

The command to save the current configuration on the H3C router COMWARE 3.4 is ().

- A. write
- B. save
- C. copy
- D. reset

Answer: B

Question: 14

Common routed protocols are ().

- A. IPX
- B. OSPF
- C. RIP
- D. IP

Answer: A, D

Question: 15

The transport layer functions to ().

- A. Fragment the data from the application layer to the network layer
- B. Setup end-to-end connections, mainly logical connections for data stream transmission
- C. Send data fragments from one host to another
- D. Some transport layer protocols ensure the correctness of data, such as TCP.

Answer: A, B, C, D

Question: 16

Common session layer protocols are ().

- A. Structured Query Language (SQL)
- B. Network File System (NFS)
- C. Remote Procedure Call (RPC)
- D. America Standard Code for International Interchange (ASCII)

Answer: A, B, C

Question: 17

Common Presentation layer protocols are ().

- A. JPEG
- B. GIF
- C. MPEG
- D. MIDI

Answer: A, B, C, D

Question: 18

Protocol Data Units (PDUs) contained in the OSI reference model include ().

- A. APDUs
- B. BPDUs
- C. PPDUs
- D. SPDUs

Answer: A, C, D

Question: 19

Which of the following is a WAN interface?

- A. X.21 interface
- B. RS-232 interface
- C. V.24 interface
- D. V.35 interface

Answer: A, B, C, D

Question: 20

Which of the following is included in the connection-orientated service?

- A. Connection establishment
- B. Data transmission
- C. Connection termination
- D. Dynamic allocation of resources

Answer: A, B, C
