Questions and Answers PDF 20/54

B. To immediately grant the user access to Zscaler Private Access resources

C. To enable the portal to register the user's device and pass the registration to Zscaler Internet

Access

D. To share the authentication token with the SAML IdP to validate the user session

Answer: C

Explanation:

The Zscaler Client Connector provides the authentication token to the Zscaler Client Connector Portal

to enable the portal to register the user's device and pass the registration to Zscaler Internet Access.

This registration process is crucial for device posture assessment and policy enforcement, ensuring

that only registered and compliant devices receive appropriate access.
